PRINCIPLES of the Financially banking resource-based technological mafia-driven materialism

The principles of the Financially banking resource-based technological mafia-driven materialism

The only purpose is the profit and enslavement of peoples, states, governments, creation of monopolies. Participating countries - banks, financial institutions, companies - oil, resources, steel, oil, food, medicines, fuels. Finance and money determine politics, wars, peace. Primary goal and approach: Central bank formation in the major countries to control not only finance, but also economic activity and politics. These central banks will be governed by governments, states, parties, citizens, a whole territory, in terms of money, investment, resources, use, in whose behalf and for what. These are the initial steps. Establishment of central banks in the major countries in fact to control not only finance but also economic activity. Establishment of central banks in countries owned by private individuals and private banks. This controls the economies of these countries, governments of these countries, citizens, over entire societies. Where central private banks are not allowed to be created in the countries - it is the occasion to generate civil wars, wars between states, trigger "revolutions" - to finance them from the bank-financial resources technological capital. Creating conditions for destabilization of the country concerned, importing corruption, provoking a civil war, provoking war, creating conditions for the maturing of an economic crisis, leading to the destabilization of the political power in the country. Generating and provoking wars, conflicts, fickle confessions, financing both the warring parties with loans - with the ultimate goal of profit, debt, then giving credit for the recovery of these states, lending to rebuild the economies of the warring states, shunning companies managing resources - oil, gold, trade, medicines, food, creating a military situation - unlocking - an institutional occasion. System: Funding both sides to wage war between them. Practical parties are indebted to banks, then banks and financial institutions finance the recovery of their economies. Profits are enormous. The profit rate for weapons and ammunition is the highest and most rapidly recoverable and revamped. They finance supplies of weapons, ammunition, food, clothing, ammunition, extra equipment, they actually manage the war process - when there is an advantage for one side, for the other. Realistically with supplies of weapons, ammunition, they manage the process of war - which side takes precedence and when and for how long.

The Goal: Government control - not only through finances, but also by building up faithful government and state subjects - from universities, world institutions, clubs, lodges,

foundations, which then either become presidents, prime ministers, ministers, leaders and important institutions.

The Hidden Ideology of Finanosov Bank Resource-Technologically Mafiaized Materialism by Lord Prof. Momchil Dobrev and the Real Hegel Theory according to Lord Prof. Dr. Momchil Dobrev

The original ideologist is Hegel. Hegel says: Conflicts create a story. If conflicts are controlled, managed, and created, what will the story be - induced - generated story. This is stated by Lord Prof. Momchil Dobrev as counterpart and critic of Hegel. Finishers and bankers create organize, plan the beginning - the cause, the place of the end of each conflict. The funding of the conflict - both sides. Existing power is the "thesis" that generates its opposite - "antithesis" The conflict that arises between these two forces creates "synthesis". Conflict conflicts. The wars represent the synthesis we see according to Hegel's Theory. Wars create benefits - profit, interest. According to the thesis and the intrigue are necessary for the movement of history. The truth is that both the thesis, the antithesis and the synthesis are important for the capital and the fruits of this capital - the profit. The trilateral commission openly admits that solving for war and peace is only taken by a few elite people. All property common source - Hegel. Hegel teaches that the state is God, and the only obligation of the citizens is to serve the state, thus serving God. Historical dialectics - all historical events emerge from conflicts between opposing forces / thesis and antithesis /, but which are generated by financially resource-based technical mafia-driven materialism, adds Momchil Dobrev. That's the real truth. Supporter and further developed Hegel's theses, but in our opinion, in a very consciously wrong direction that serves the purposes of financially banking, the technically manipulated materialism is fed to Rothschild Karl Marx - a Jew. Marx and "capital" treat capitalism as a "thesis," communism as "antithesis". The man who uses Hegel's theses is JM Morgan. JM Morgan studied in 1850 at the Göttingen University in Germany - which center was Hegel's activity. Morgan uses all the parties in his favor. He supports Republicans, Democrats, a Communist Party, and his closest is Julius Hammer, the father of the famous Armand Hammer. The real theory of Hegel and Marx is the glossy cover that has nothing to do with truth and reality. The practice is to manipulate people, left, right, centrists, and others. One of the most prominent figures of modern history that has given its appreciation of the "laws of

history" is Karl Marx. Marx formulated an entirely new historical philosophy that played an important role for billions of people on earth, whom Momtchil Dobrev believed to be deliberately misguided and directed at the masses, with the ultimate goal of manipulating capital and bankers and their benefit from wars, conflicts, and so on. Actually, according to Momchil Dobrev, Karl Marx has committed a falsification of history. The present material proves this - the mistakes and contradictions of Mark and Hegel. Marx is Jewish. He likes to collect huge amounts of information, but only to use it against his opponents. In the beginning he deals with law and poetry. For years he has been following Hegel's footsteps. Marx behaves like a prophet and thinks in Hegelian categories, establishes those, antitheses and synthesis, without ever giving logical evidence. He is subordinate to his teacher Hegel. Makes the same mistakes and adds new mistakes. Opponents get lowered through several high-spirited words. With his pen, he tries to inspire the masses, constantly dreams of revolutions, and escapes extradition from France. Everywhere he sees the flames of the revolution. His predictions almost never happen and come true. Dream and pray for coups and revoltsii, but in terms of theory and mafiotizma Financial - Banking Technology Resource mafia materialism Lord prof. Momchil Dobrev each revyalyutsiya coup and is funded by zainteressovanitestrani - ie financiers and bankers .. The criticism of Lord Prof. Momchil Dobrev to Karl Marx and to Carl Poper.

A truly internationally from the 18th century, FINANCIAL BANK RESOURCES TECHNOLOGY MAFFIOTISED MATERIALISM of Lord Prof. Momchil Dobrev is working, not the historical materialism of Karl Marx.

THE SEROUS SCHEME (Györ Schwartz) FOR ENTRY IN COUNTRIES AND THE ESTABLISHMENT OF PARALLEL STRUCTURES

The Open Society as a concept, as a system in the work of the Soros. About Soros The open society is what opposes isolationism and unitary thinking, that is, of "totalitarianism". Soros adopts the ideology of Carl Popper, who, in 1945, publishes its books on Open Society and its enemies. Soros created the foundation of the Open Society Foundation in the early 1980s in former socialist countries. This begins in his native Ugaria. It attracts dissident people, the opening of Hungary to the West accelerates the fall of the Burlinska wall.

The processes in The Eastern Europa

The very process of disintegration of the Communist system was used as much as possible by Soros in the early 1990s, for making foundations and imposing ideas for an open society. Foundations are established throughout Eastern Europe. Actually, through these foundations, this is a platform to create parallel structures in these countries that create chaos. The slogans are for a multi-party system, for the democratization of societies, Independent civil associations and organizations, non-governmental and organisa- tional, often co-financed by the rules themselves, are set up. Soros 1979 grants \$ 3 million annually for Solidarity in Poland. Nowadays it turns out that all these members of Solidarity⁴ are agents of the state services. Soros created 1979. and the Open Society Foundation. He finances dissidents from the Charter -77 in Czechoslovakia, as well as academician Sakharov in the Soviet Union. The scheme is clear - attacking companies, national currencies and entire governments and states, weakening them in currency and financially and economically, bringing them to the brink of survival, and then fast-tracking and subsequent sale with the realization of huge profits. Funded the creation of independent media and supporting movements that ultimately serve him and his goals and aspirations and plans. Andrew Gromika in the Soviet Union gives a green street to Soros' methods and actions. In Bulgarians, the commune, Andrei Lukanov, gives a green street to the "Open Facade". In the Czech Republic, Soros maintains Vaclav Klaas. In Rusi ja Gaidar and Yavlinsky. As Gaidar and Yavlinsha push Rousse into profound economic, social, political, and other ways, giving the green light to the penetration of Western capital that buys the state of origin and makes them dependent. Soros's goal is to master politically and economically the former "communist" Eastern Europe in order to gain from it. That is why he started building an open society in a communist Eurasian Europe back in the 80s of the 20th century, creating a

foundation of the same name in the United Kingdom. This foundation is a symbol of dissidents and dissent thinking, which helps the country to transition to a multipurpose system. The multiparty system creates insecurity, chaos in every government. With the real breakdown of the Communist system in Eastern Europe, Soros's open society system is at its peak. Soros creates foundations in all the countries of East Europe, where hundreds of millions of dollars are poured for the "democratization" of the political and state system of the former communist countries. "Independent" Civic Councils and Organizations are set up. Consequently, an "open society" begins to serve only the goals of its creator. The Open Society system is evolving and becomes a "closed society" - a "closed system" in which only selected people - precisely defined for the purpose of the creator receive scholarships abroad. Ie. begins the actual creation of an entourage.

The goal is a bloodless change of the political system to serve Soros. This is actually the Marshall Plan of Soros, as a representative of FBTTM Materialism. It finances political movements. Create parallel structures in the countries where it operates. Financing of political projects - parties that win power in the states of France, Bulgaria, and dozens of others. The GERB party in Bulgaria is a project of Soros. THE EUROPEAN UNION AND THE EUROPEAN COMMISSION - A project of people such as SAROS. Through his financial speculation, he wants to gain power over nations, peoples, governments, only to win and gain profits from that. Under the slogan of liberal strategies and supposedly pursuing the idea of an "open society." He considers the time of the bloody massive revolutions to be over, and there is another, more sultry, five for the change of the political system and its rule and management. Under the suggestion that a liberated society must be liberally placed by the local society with the control of the economist and the media. However, this will happen with people who will be faithful to their leader - SAROS in all spheres - political, economic, banking, financial institutions, ministries, governments. These heads will be created at the Open Society Foundations of SAROS in so-called non-governmental organizations. They will work on creating a parallel to state structures - the media, journalism, book publishing, the judiciary, education, sociology, finance, banks, financial institutions, healthcare, and in all spheres of society. Under the slogan of charity, Soros started 1979. granting \$ 3 million a year to Solidarity4 in Poland, to "Charter-77" in Czechoslovakia, to Academician Andrei Sakharov in the Union of Councils. As a good result 1989. the Berlin Wall falls. In fact, Soros became a non-crowned king of Eastern Europe. In Russia, Andrei Gromiko gives a green street to the 4 Open Society Foundation, in Bulgaria - Commander Andrei Lukanov, a GPL agent. In Russia favorites of the wizard are Gaidar, Yavlinsky. With their economic models, the latter are pushing Russia towards a fierce financial and economic crisis. Indeed, Soros intervenes not only in politics, economics, finance, but also in all the spheres of society in Ukraine, Pesh, Czechoslovakia, Russia, In Poland, the Open Society Foundation is called "Stefan Bartoni", the name of a Polish king who defeated the Russians in battle. In Ukraina Soros, he helped Leonid Kuchma to take power. It openly calls for NATO to bomb Serbia. Actually, in the last 2018 years. Soros calls on the European Commission to pay billions for the European Refugee Wave and to finance billions of Africans. These and other money will be stolen by the undercover companies and agents. 1991 Soros gives the opposition \$ 100 million to take down Slobodan

Miloshemvich, the real result is 2000. Milosevic was shot down by the USSR and with the help of Soros. In China and Belarus, Soros hits a stone. And Vaclav Klaas soon realizes that Soro aims to "make huge money quick". The same is soon understood in the United Kingdom. 1991 Vaclav Klaas eliminates the campus in Prague at the Central European University, where Soros and the Soros followers and performers are grown. This is a scheme - through the Central European University and its programs is created by the Soros class, which is then put into the political, economics, economics, ministries of the country. This university teaches students in law, social sciences, business, mathematics, politics. Soros has funded the Georgian Revolution in Ukraine and the Revolution of the Tulip Georgia. Russia and the government of Russia understand Soros' plans. Honorably, the disintegration of states aims at the easy theft of the resources and resources of a country Zbigniew Bzezinski, who is a rosick man, and Rockefeller and a Soros man, William Clark, former NATO commander in Europe, Paul Wolfowitz. Another proof is the fact that Soros has invested \$ 100 million in Carlisle Group, and there are James Baker, US Secretary of State during the Velvet Revolutions in Eastern Europe, Frank Carlucci, former Defense Minister Bush- Senior and Osama bin Laden. One of Soros's and company's goals is opening up all the ways and opportunities for huge profits of multinational companies and money laundering.

The slogans are: "The market is God," "Freedom is more important than equality." Soros himself states: "As a market participant, I do not have to be concerned about the consequences of my actions." At the same time Soros declares himself a savior of civil society, an opponent of market fundamentalism and a champion of open societies and citizens' freedoms. Saakashvili's regime in Georgia is under a direct smog from Soros. More than half of its ministers are former bosses and functionaries of the Georgian Open Society. Soros finances revolutions in the countries. Behind Soros, however, is the power and back of Rothschild and the oligarchic Rockefeller and Chee. It is no accident that the Russian oligarch in exile in England Boris Berezovsky said: "I almost fainted when I realized two years ago that George Soros was a CIA agent." Through his financial speculation, he wants to gain power over nations, peoples, governments, only to win and gain profits from that. Under the slogan of liberal strategies and supposedly pursuing the idea of an "open society." He considers the time of the bloody massive revolutions to be over, and there is another, more sultry, five for the change of the political system and its rule and management. Under the suggestion that a liberated society must be liberally placed by the local society with the control of the economist and the media. However, this will happen with people who will be faithful to their leader - SOROS in all spheres - political, economic, banking, financial institutions, ministries, governments. These heads will be created at the Open Society Foundations of SOROS in so-called non-governmental organizations. They will work on creating a parallel to state structures - the media, journalism, book publishing, the judiciary, education, sociology, finance, banks, financial institutions, healthcare, and in all spheres of society. Under the slogan of charity, Soros started 1979. granting \$ 3 million a year to Solidarity4 in Poland, to "Charter-77" in Czechoslovakia, to Academician Andrei Sakharov in the Union of Councils. As a good result 1989. the Berlin Wall falls. In fact, Soros becomes a non-crowned king. Establishing parallel structures in RUSSIA. Still 1987 Soros created the

Soros-USSR fund, which later appeared in the Soviet-American Cultural Initiative fund, which included Afanasiev, Baklanov, Saslavskaya, Masarov, Amethystov. The fund's money is also funded by Yawlinisky, who has developed the program for destroying the Soviet economy. At that time, Gorbachev entered the Tripartite Commission. Mediator is the mason and agent of Mossad George Soros. The contact with the faces of BFRTM Materialism takes place in the wake of his holiday in Italy. Aleksandar Yakovlev's coats in people from BFRTM are from his stay in Canada. Gorbachev's entry into the tripartite commission was January 1989. Then the schemes of so-called "perestroika" in the CCP are solved. Then the tripartite commission was represented by David Rockefeller, who also heads the US International Relations Council, Hernie Kissinger, Valerie Giscard Desten, Jahiro Nakassone, On the side of this meeting where Soviet perestroika is decided, Yakovlev, Shevardnadze, Arbatov, Primakov are present. 1988. Gorbachev met in Malta with US President Bush. The destruction of the USSR has then taken place. Malta is the capital of the Maltese Order, members of which are members of the Tripartite Commission and the Builders' Club. 1990 dismantling the entire system of governance of the Soviet Union under Gorbachev, Shevardnadze, Yakovlev - a deliberate demolition of state structures that are replaced by parallel structures. At that time, the activities of the Soros Fund in Russia were expanded, and its assistants gave advice, programs for the destruction of the state structures of the USSR. In ELCIN's subsequent steps as President, the Russian state's demolition was conceived. For this, Rotary International, the Martiathian Order officially restored in August 1992, by Decree 827. Members of Rotary International become Luzhkov - Mayor of Moscow, Sobchak, Ambarzumov, Fyodorov, Voruvin. 1992 a parallel of the Bilderberg Club - Magisterium Club with members Soros, Yavorov, Shevardnadze, Avtushenko, Sobchak, Brodsky, Shatalia and others.

The currency scoring scheme for the one currency is the following:

Soros uses the scepter - money loss, loss of bank liquidity, breakdown of deposits and lifting the interest rate 25% per month from the Bulgarian national bank - really it creates only with one system of return of 3 million us dollars Sunday archives and \$ 500,000 returned between 9 financial houses - creating foreign currency and challenging currency development - leva for statistical journal.

Soros is started to central and outlook Europe in the post-cold war event. Soros is also becoming a member of ASIA - Malaysia, and others and all under location for open society - the ideology of Carl Popper. This is THE WONDERFUL VISION - SOROS - Karl Popper's Ideology. Proof of the one currency debt scheme and the creation of the foreign currency credit in the relevant country

Soros and the central bank of England

In 1990, Britain acceded to the European Monetary Mechanism by committing itself to implementing monetary and economic policies that would guarantee no more than 6% fluctuations between the British currency and the other currencies participating in the European mechanism. Unofficially, England is committed to following the German mark. Upon entering the UK, the pound costs 2,95 German

marks. Upon reaching the lower limit of DM 2,778, the State in the face of the Central Bank of England is required to intervene in the market. And at three times higher UK inflation vs. Germany and interest rates of 12-15 percent. The scheme is prepared. Interests were raised in German at the beginning of 1990. 1992 the British peacock and the Italian pound fall under speculation. The scheme speculators borrow these currencies and buy German marks. The blow was on September 16, 1992, when the English bank does not accidentally raise the default interest rate from 10% to 12%, suggesting it would raise the interest rate to 15%. Giorgos Soros plans to sell British pounds a short for a colossal sum of 10 milliard US dollars. He pays the amount of pounds in German marks at a fixed exchange rate of 2,95 Deutsche Marks per pound. He has real brands and owes pounds. By ruining the price of the German brand, he will get back much more than he owes for the same money. And the difference is profit. The scheme is one of the same - preview and development of the relevant currency in the repairing administration under conditions available - using the scepter - money money loss, loss of liquidity of banks, depreciation of deposits, and lifting of the interest rate 25% per month from the Bulgarian national bank - really it creates only with one system of return of 3 million us dollars between spirit arnka and usd 500 000 returned between 9 financial houses - creating foreign currency and challenging development of the currency - leva stop or state girl.

Russian financial crisis from 1996-1998

The post-Soviet Russian economy after 1990. was in the hands of "shock therapy," and reforms by President Boris Yeltsin led to a rapid rise in inflation, resulting in loss of savings for hundreds of millions of Russian citizens. This is the scheme. The new central bank of Russia sells an official rate on the interbank foreign exchange market in Moscow at 125 rubles for one US dollar. Thus, until December 1992. the ruble has already lost about two-thirds of its value. 1993 the ruble comes to 1247 rubles per dollar. On October 11, 1994 the Russian financial market event known as "black Tuesday" happens when the ruble collapses by 27% in one day. By the end of 1995. inflation is 200%. In 1996, Russian ruble bands at levels of 5560 rubles per dollar, 1997 the ruble falls to 5960 rubles per dollar. The government made a denomination and on January 1, 1998. the ruble was \$ 5.96. On 17 August 1998, Russia announced its technical indebtedness to its domestic debt of 40 billion dollars and ended its support for the ruble on the same day. Then the Central Bank of Russia had reserves of \$ 24 billion. The stock exchange and the ruble lost more than 70 percent, and almost a third of the country's population lost its savings. This is the scheme - SMALL CURRENCY RESERVES - the currency of the respective country is being withdrawn, because of the lack of support, the CENTRIFUGAL DEVELOPMENT OF THE DEVALVATION is set and a currency crisis is created. This is the SOROS SCHEME.

The Bulgarian financial crisis 1997

1993 the amount of losses in banks exceeds equity. 1994 - nine banks account for 87.2 percent of the losses of the banking system. 1995 the number of banks with losses is increasing to 23, 15 of which are private, 1995 bad loans increased by 52% 1996 CASHING MONEY. 1993- 1996 LOSS OF LIQUIDITY OF BANKS. 1996 TANGLE of bank deposits. Instead of raising the banks' capital adequacy ratio, the BNB raised the

interest rate in 1996. since September 1996. a basic interest rate of 25% per month or 300% per annum. 1996 insolvent banks. Restricted currency resources. The currency component of domestic credit is progressively growing. Currency Disables. The IMF offers external funding.

Ie. here the principle after creating the foreign currency and wins from this currency currency of us \$ 67 million for one week only, using the scepter - money loss deficit, loss of liquidity of banks, depreciation of deposits, and lifting of the interest rate 25 % per month from the Bulgarian National Bank - really it is created only with one system of return of 3 million us dollars between spirit arnka and \$ 500,000 returned between 9 financial houses - creating foreign currency and creating currency development - leva on US dollars. Real 1996 with the sale of a \$ 40 million bank at \$ 2800 after January 4, 1997. after soothing the market in Bulgaria, Soros buys the same money twice more, already at a price of 160 leva. But the trick used by Soros banks is that the \$ 3 million spin between 4 Bulgarian banks and the spin of \$ 500,000 from 9 financial houses generates the centrifuge and the spiral of the dollar exchange rate devaluation to the US dollar, become a dollar for a leu fictitious, and a real dollar for a dollar, just pumping and increasing the exchange rate of the leva to the US dollar to reach 3,000 leva per dollar. The purpose is a winning of the international fund of hfw and the World Bank.

Political projects of saros in countries

POLITICAL Projects of SOROS in Bulgaria started in 1996. with the devaluation of the lev. 1997 a Center for Economic Development is being set up, which establishes the program for the development of Bulgaria in the next 4 years in the management of the Union of Democratic Forces with Prime Ivan Kostov, all with the help of foreign experts. In 2007, Soros began attacking the Roma minority. There are 49 non-governmental organizations for the protection of Roma rights. This also creates privileges for minorities on the part of the state. Approximately 600 million leva are spent on European programs for the integration of the Roma population, for education, for education. The result is more than 80 percent of Roma children who do not attend schools. Ie. money is stolen. The scheme is clear. In Bulgaria Soros has established and maintains over 90 non-governmental organizations. Most of all, they are ethnic, because they are most easily and seamlessly create chaos in a society. An example of this is the Integration Association, the Bulgarian Lawyers for Human Rights, the Bulgarian Helsinki Committee, the Minority Studies Society "Morani Studios", the Society for Turkish Language and Culture, the Ethnic Monarchy, the Institute for the Study of Integration, the Institute for political and legal research, International Center for the Study of Minorities and Cultural Interactions, Gender Project in Bulgaria Foundation, Minority Health Problems Foundation, Liberal Integration Foundation, Inter Intellectual Foundation Human Rights Initiative, Center for Non-Governmental Organizations - Kardzhali, Assistance Center for Tortured Survivors - ACET, Stolipinovo Self-help Bureau, Tsion Eurasian Committee, Habad Jewish Center, Women Independent Roma Organization Carmen- Razgrad, Women's Roma Association "Good Mother", Indian-Rom-97, and dozens of others. The results in society - emigrants of a million Bulgarians abroad, the educational system in Bulgaria is ruined as a result of the proposals for "reforms" in education by the Open Society. There is a real interference of Soros' structures in replacing the

history and the literature, the morality of Bulgarian society. It's really about denationalization that's part of Pike's plan. The Open Society strategy is primarily the policy of promoting minorities. They actually create chaos in a society. In the so-called public space, in all the state and public authorities in the foreground are placed half real real problems of gay, gypsies, cat owners and queens. The Roma are paid by the state, only the Bulgarians, the Roma receive all kinds of state aid - social benefits, heating, electricity, etc. and they do not have to work to feed themselves because state aid and state aid illnesses give them and provide so much money that they do not have to work but only create chaos and tension in society. The Roma are one of the most loyal electrages of the GERB party, which is a Soros project and has been running since 2009. until 2018. almost without interruption. Also by a Decree of the Council of Ministers No 76 dated 20.07.1990. privileges are granted to the Open Society Foundation as it is exempt from duties, taxes, fees, donations to the Foundation are exempt from taxes, grants to the National Palace of Culture in the center of the capital Sofia, gives the Foundation the opportunity auxiliary business activities by creating a printing house, a publishing house, an informational-documentary center, for each US dollar. The Bulgarian state must provide the foundation the same in levs, ie. 42.1 million leva subsidy. This is 1996. which is why the devaluation of the lev to the US dollar is 1996 - 1997. After that, the plot is born - Boyko Borisov This is a real process of turning against the political system in Bulgaria. The project was intensified and realized by representatives of Soros in Bulgaria.

The plan is based on Soros's schemes for social engineering and political marketing and political engineering. 2002 the "Global Bulgaria" mood was established. The chief executive is Boyko Borisov - an unseen secret agent of State Security, a fire brigade, a security guard, a smuggler, a karate, a bodyguard, and his lucky cohabitation with Tsvetelina Borislavova daughter of a Chief of State Security. Tsvetelina Borislavova as Chief of CIBank edotis well dressed with representatives of Open Society in Bulgaria Chairman of the Board of Directors of CIBank is Georgi Prohaski - Chief of Open Society Svetoslav Bozhilov adviser and partner in the bank is a member of the board of the Open Society "Here is also joined by the head of Bulbank - Levon Hampartzoumian - Deputy Minister of Economy in the management of Shvan Kostov, the figures Ivan Krastev, Krasen Stanchev, Ognian Shentov - the directors of Soros' centers and the businessmen in "Global Bulgaria" - Valentin Zlatev - Lukoil, Sasho Donchev - Overgas, Krasimir Gergov - the media, and Ivo Prokopiev - company owner. 2005 the Tipping Point Foundation is registered as founders of Tsvetelina Borislavova, Svetoslav Bozhilov, Ivan Krastev, Alexander Bozhkov. 2008 May May Launches National TV Channel No TV. 2009 the project "Boyko Borisov" has been implemented and managed by Bulgaria until December 2018. For the period 2012 - 2017. The Open Botosseva Institute Foundation, in partnership with the Workshop for Civic Initiatives Foundation, acts as the operator of Protrama for the support of NGOs in Bulgaria under the Financial Mechanism of the European Economic Area. Ie. giving money to the well-defined people.

European union - a project of the Financial Banking Resource Technologically Manifiable MATERIALISM part of which is also SAROS

The european union and the european commission - a project of people like SAROS for enormous profits - at least 40 - 45%

of all funds distributed to the Member States of the European Union. For the period 2012 - 2017. The Open Institute Foundation, in partnership with the Workshop for Civil Initiatives Foundation, acts as the operator of Protrama for the support of NGOs in Bulgaria under the Financial Mechanism of the European Economic Area. In fact, Soros's structures reach the very representatives in a European jargon, where at least 266 MEPs vote on decisions related to his statements and aspirations. But the role of Soros and the financial oligarchs, Rothschild and Rockefeller, is not just here - the very proof of passing directives - binding on all European Union member states that are implementing Pike's plan to undermine society, family, personality, society demonstrate the impact of SAROS and these financial oligarchs in the decisions taken by both the European Parliament and the European Commission. It is well known that a minimum of 30 percent is guaranteed to go to companies and companies mostly registered in London and the UK by all funds distributed in all EU Member States.

Mexican crisis 1994 – 1995

The Asian crisis 1997 Malaysia, the Philippines, Singapore, South Korea and Hong Kong. Soros 1997 managed to depreciate Malaysia's national currency by 1/3. With huge restrictive measures, the state is recovering in 3 years.

The ideology of CARL Poper

Soros's ideological platform is from the great Austrian philosopher and thinker Carl Popper who prefers him in London. The idea of freedom aims to create flexible tools for powerful geopolitical influences in the individual countries of East Europe and the developing world. However, we can not only speak of self-presumption of "freedom" as Carl Popper does if these rights of freedom are not based on legal norms, ethical norms, moral norms and society. Otherwise, freedom becomes infinite and chaos of freedom and chaos for freedom. According to Carl Popper, truth is not something that is discovered, it is invented. Ie. the truth is always temporary, it remains in force until it is rejected. Truth is in the human spirit, in the imagination and the reason of man,. The truth, according to Popper, is constantly exposed to the cross-fire of trial and experience - trying to "falsify" it as a substitute, as it has been, and inevitably, progress, civilization, will be inevitable in various stages of human development. At first, according to Popper, truth is a hypothesis or theory that seeks to solve a question. The hypothesis or theory is or must be subjected to trial of "experience and error," to testing or rejecting those who are not convinced. All this has an impact on life, causing changes in medical practice, the military industry, public organizations, sex, and others. Until a new theory suddenly appears and does not "falsify" or reject it. This is Popper's philosophy. It is limited and burdensome. That truth exists and may have a relative existence does not mean that it is relative. Truth is insecure, so science is vulnerable. But that does not mean that the truth is inaccessible. The existence of truth is evidenced by human progress in all areas: science, technology, society, politics. Popper turns criticism - ie. the exercise of freedom - the basis of progress. Without criticism, without the possibility to "falsify" all the assurances, there is no progress in science or in the fulfillment of social life. If people do not have the freedom to question and test the validity of all theories that promise some sort of solution to the questions before them. Everything that promotes Popper is a fiction that does not rest on rational intelligence. Then, myths, religious

and other exhaustions come to be honored instead of rational truths. Ie. the exercise of freedom is a fundamental right of reason, of culture, of science. Popper transforms freedom as a prerequisite for man's life. Popper defines the three worlds: the first world is that of things and material objects, the second is the subjective world of thought, and the third is that of the works of the spirit. The difference between the second and the third is that the second one is built up of the individual's individual subjectivity of the individual, the ideas, the images, the perceptions, the realms, while the products of the third one, though created by the subjectivity, have become public-scientific institutions, legal institutions, ethical principles, art, culture. The birth of the critical spirit breaks the walls of the closed society and exposes the person to a full-blown experience: personal responsibility. Freedom, daughter and mother of rationalism and of the critical spirit is a heavy burden on the shoulders of the human being. Popper says that with the simultaneous birth of the open society, in which intelligence has replaced the irrational, the individual has become a true person in history, and freedom has begun to displace the former bondage. But here is the criticism of Momchil Dobrev that there cannot be just freedom without the legal, ethical, moral norms on which a society is built. No base, no skeins, no foundation, no building collapses. Thus, Popper's theory of decay for a "free open society" collapses. This is a chimera that is used in the wrong direction by Soros and a company.

THE NEW WORLD SYSTEM BASED ON ROCKFELLER 20 OF MARCH 1969 ON THAT WORK GEORGE SOROS

The realities are others - replacing the system of wars with the creation of terrorism, another enemy - Islamism, and the other way - Soros' system of conquering states, governments, states, societies - entire societies, not their resources. Quote by Thomas Jefferson - "If one day the American people gives private banks the control of monetary" production, "they, along with the mobsters around them, will rob people's property first through inflation and then deflation. Until one day their children wake up without a roof over their heads on the continent, conquered by their fathers. "
